Drying time

- Allow the floor to dry for an hour before walking on it

Storage

- Store the Combireiniger® in a dark, cool and frost free place
- Keep Combireiniger® out of the reach of children

General advice for maintaining a wooden floor

- Always clear away any spilled liquids immediately
- Consider the use of felt pads under furniture to protect your new floor surfaces
- Humidifiers keep your floors stable and in top condition
- Put an external doormat outside every outside door to collect some of the mud and stones that will damage the new floor surface
- Place floor protectors underneath vases and flower pots
